**BORNHARD**  
FABRICATION WELDING PIPING

# Objectives

- 1. To vigorously strive against unemployment while providing accredited skills training to the historically disadvantaged Labour force and contribute to local economic development.**
- 2. To provide an enabling environment for the development and encouragement of individuals possessing the passion, motivation and aspiration to enhance their skills, thereby contributing to the development of local engineers.**
- 3. To exclusively build a reputation for technical excellence and innovations, quality of service and reliability to both our clients and recipients of our service.**
